## Middle School Magnet Programs

- **Design and Technology Academy** - The Design and Technology Academy (DATA) is a specialized magnet program at the middle school and high school levels, which provides a small learning community and rigorous curriculum to foster intellectual and creative abilities. The middle school curriculum focuses on computer coding, programming, and information technology to build the foundation for the high school emphasis of Architecture, Computer Science, Visualization, and Scientific Research.
- **Krueger School of Applied Technologies** - The Krueger School of Applied Technologies (KSAT) is an all-around rigorous Pre-Advanced Placement (Pre-AP) middle school program that uses Aerospace Science and Technologies as its theme. The instructional units incorporate science, technology, engineering, and mathematics (STEM) with an emphasis on team work, problem solving, and improving communication skills.
- **Science, Technology, Engineering and Mathematics Academy** - The Science, Technology, Engineering and Mathematics (STEM) Academy creates visions of future academic and career possibilities and enables students to translate those visions into the realities of college graduation, informed citizenship and international leadership. This small, diverse learning community at the middle and high school levels is united by a common interest in the significant issues of science, technology, engineering, and mathematics.

## Winston Churchill Highschool
